SUMMARY

Data-driven Computer Science undergraduate with strong expertise in Python, SQL, Power BI, and machine learning, experienced in data analysis, visualization, and real-time detection systems. Proven ability to transform complex datasets into actionable insights that support informed decision-making. Skilled in building analytical solutions, identifying trends, and delivering accurate, scalable results. Seeking an entry-level Data Analyst/Data Science role to apply technical skills and contribute to data-driven business impact.

EXPERIENCE

- Gradtwin, Data Science Intern**03/2026 – Present | Chennai
 - Developed end-to-end machine learning solutions by performing data preprocessing, exploratory data analysis (EDA), feature engineering, and building classification models using Python, Pandas, NumPy, and Scikit-learn.
 - Created interactive dashboards and data visualizations using Streamlit, Power BI, and Plotly, while working with MySQL for data management to support data-driven decision-making.
- EduSkills, Google AI-ML Intern**10/2025 – 12/2025
 - Performed data preprocessing and exploratory data analysis using Python. Analyzed datasets to identify trends and patterns relevant to business use cases. Applied machine learning concepts for classification and prediction tasks.
 - Visualized insights using Matplotlib to support data-driven conclusions.
- Excelerate, Associate Data Analyst Intern**08/2025 – 09/2025
 - Completed the Associate Data Analyst program at Excelerate, delivering interactive dashboards and visual reports that improved data accessibility and supported faster, data-driven decision-making.
 - Analyzed and visualized datasets to identify key trends, helping stakeholders reduce reporting time and improve insight clarity across business metrics.

EDUCATION

- Bachelor of Technology in Computer Science with Spl. in Data Science, Mohan Babu University**2022 – 2026 | Tirupati
CPGA: 7.91/10
- Senior Secondary School, Sri Chaitanya junior college**2020 – 2022 | Tirupati
Percentage - 78.7%
- Secondary High School, Raju High School**2020 | Rayachoti
Percentage - 100%

SKILLS

- Programming Languages:** Python, SQL, R
- Data Visualization & BI:** Excel, Power BI, Streamlit, Plotly, Matplotlib, Seaborn
- Tools & Technologies:** Git, GitHub, Jupyter Notebook, Google Colab, VS Code
- Machine Learning & Data Science:** Machine Learning, Data Preprocessing, Exploratory Data Analysis (EDA), Feature Engineering, Model Evaluation, Scikit-learn

ACADEMIC PROJECTS

- Vehicle Detection using Python (Deep Learning),**
Python, YOLOv8, OpenCV, PyTorch, NumPy, an\as, Matplotlib, Google Colab, Webcam API, GPU acceleration (CUDA).
- Analyzed and processed large-scale image and video data using Python, Pandas, and NumPy to support a vehicle detection and classification pipeline.
 - Evaluated model performance using statistical metrics and visualized results with Matplotlib, identifying patterns and accuracy trends across different vehicle categories.
 - Generated actionable insights from detection outputs to support traffic analysis and data-driven decision-making, leveraging structured data extracted from real-time video streams.
- Predictive Maintenance using Classical Machine Learning** *Python, Scikit-learn, Pandas, NumPy, Streamlit, Power BI, MySQL, Plotly, Joblib*
- Developed an end-to-end Predictive Maintenance System using the AI4I 2020 dataset to predict machine failures through data preprocessing, exploratory data analysis, and machine learning techniques.
 - Built and evaluated Logistic Regression, Decision Tree, and Random Forest models, selecting Random Forest as the final model with 99% accuracy, 100% precision, 97% recall, and 98% F1-score.
 - Designed and deployed an interactive Streamlit dashboard integrated with Power BI and MySQL, enabling real-time failure prediction, probability analysis, feature importance visualization, and prediction history.

CERTIFICATIONS

- Cloud Infrastructure 2025 Certified Data Science (Oracle)
- Introduction to Operating Systems & Security (Coursera)
- Data Understanding and Visualization (Coursera)

SOFT SKILLS

- Adaptability
 - Collaboration
- Communication
 - Leadership
